The SoftShield Cover combines the outdoor protection of the MaxTech Car Cover with the paint pampering qualities of our Premium Flannel Cover. The SoftShield's three outer layers are made of the same UV treated polypropylene material that makes our MaxTech Cover so durable. The inner fourth layer is made of a soft polyester nap, which gently protects your car's finish. SoftShield repels dirt and pollutants while remaining breathable. Cover includes front and rear elastic hems, custom fit mirror pockets, non-scratch tie-down grommets, storage bag, tie-down cable and cable lock.

FINALLY!! An insert to fill in the blank, "black holes" in your side fender. All other years of C3's had some type of insert or grille, except the 73-79's. Transform your 73-79 Corvette with that great classic look shared by earlier and later Corvettes by dressing-up the front fender vents. Our matt black grilles are computerized WaterJet precision cut and each kit comes with everything you need for easy installation. Unlike, other aftermarket grilles, our patent pending all weather attachment process does not require any permanent modification to your body or use tape that can easily fall off. No Holes to Drill in the paint!! If you want to dress up those black holes in your C3 fender vents and give your car that look that it should have had from the factory, you will love these high quality anodized aluminum matt black grilles. Take a look at the pictures of this item as they say it all.

Now you can convert your stainless steel sleeved Corvette calipers into the new and improved o-ring style calipers. Proven to last longer and perform better with this conversion kit than the factory style lip seals, this kit gives you everything, but the labor and fluid. No more weeping seals due to long periods in storage, but when in action, the o-ring provides a tight seal for maxium pressure and sure stops. Kit includes specially designed pistons, piston o-ring seals, outer boot seals and caliper half passage seals. NOTE: Each kit converts 1 caliper. Should be used with stainless sleeved calipers. Includes Pistons, O-Ring Seals, Dust Covers & Half-Seals.

CONTROL VALVE & RELATED » *Control Valve*

----------------	--	--------

There are many reasons to replace the rear leaf spring on your C2 or C3 Corvette, which by now may have broken leaves or is simply fatigued. The most obvious symptoms of a rear leaf spring needing replacement are the ride height is too low and the car's handling is poor. Beyond symptoms, a weakened rear leaf spring harms the drivetrain by forcing the parts to run at an incorrect angle. This puts the U-joints in a tighter bind position, pushes the differential yokes into the pinion shaft, often requiring their replacement and places unnecessary wear on the differential clutch pack and the ring & pinion. Replacing the rear leaf spring will restore lost ride height and correct the myriad of problems associated with sagging, worn-out springs. This 9-leaf rear spring meets or exceeds factory specifications. It is heat-treated, as was the original, painted with black enamel and has rubber/vinyl liners to assure smooth, quiet operation.

Adjustable rear strut rods allow for more camber adjustment and better freedom of motion. The rod ends eliminate binding in the suspension that creates unpredictable handling. Blocking plates keep the alignment adjustment from creeping over time. PTFE lined rod ends make for a durable joint and high strength, light weight aluminum improves overall vehicle performance by reducing mass.

A classic symptom of a bad wheel bearing in your C2 or C3 Corvette is noise. If a wheel is making "funny" noises when driving (squeaks, chirps, squeals, moans, etc.), or you hear a grinding noise when turning, it may indicate a bad wheel bearing. Other symptoms include steering wander or possibly a pull to one side when braking. This premium quality kit includes everything you need to replace your rear wheel bearings. Premium Quality Replacement Wheel Bearing & Seal Kit includes:

- **1 Inner Bearing And Race**
- **1 Inner Seal**
- **1 Outer Bearing And Race**
- **1 Outer Seal**

- **Converts Dated Ignition Systems To Modern HEI Technology**
- **Easy To Install**
- **Improves Engine Performance**
- **May be Supplied With Red Or Black Cap (No Choice)**
- **Distributor May Not Clear High Rise Or After Market Manifolds**

Now with a simple distributor swap you can get all the benefits of HEI technology plus performance enhancements on top of the original HEI. For example the original HEI had a 38,000 volt module, pickup and coil, this unit provides 50,000 power packed volts! The original system had bushings in the housing, this model has needle bearings for smoother operation and longer life. Plus, this one-piece distributor has a 4340 hardened steel cam gear for use with all roller cams and brass terminals in the distributor for greater conductivity than the stock aluminum terminals. So when you compare this tachometer drive distributor to what your car came with you're getting a tremendous hi-performance distributor that eliminates the points and coil and gives you all the firepower you need for your Corvette's ignition. This unit simply bolts into place, all you have to do is run a 12 volt power lead to the distributor.

Your Corvette wiring harness was made of copper with a plastic insulation. The plastic insulation was porous. Contaminants, like oxygen, moisture and airborne pollutants, eventually pass through the insulation to attack the wire; a condition called oxidation. There is no practical way to completely seal off the circulation of air and moisture between the individual wire strands. Once the wire strands become oxidized, the internal resistance of the wire increases substantially. This can cause electrical gremlins like shorts and malfunctioning gauges. If your wiring has progressed to the next stage of deterioration by becoming brittle and cracked, it is in immediate need of replacement. The solution is this show quality wiring harness from Eckler's Corvette. It's painstakingly manufactured from only the best modern wiring to original blueprint specifications in the USA. It features the correct type wire, wire color, wire gauge, wire striping, wire length, strip length, connectors, terminals and method of terminal application. The terminals are dip soldered, where applicable, to limit resistance voltage loss. All wiring harnesses are wrapped with the factory correct non-adhesive or cloth woven tapes, where applicable, to assure a 100% original appearance. Each harness is fully tested prior shipping to ensure proper functioning.

Due to the construction & design of this part, it must be bolted to a plate to prevent distortion during U-Joint installation. The friction fit of the cups requires enough force during installation to warp the flange if it is not bolted to a plate during the pressing operation. These parts are lined bored to assure proper alignment.

- Will not fit Convertibles or 68-72 with Rear Window Trays

Uniquely designed to maximize compartment space utilizing every inch with a tuck-away design, C3 Audiophile Plus speaker sound systems are a big hit with Vette owners. T-top and rear compartment storage is not sacrificed, nor the rear OEM illumination normally blocked by other speaker systems.

3116755 Audiophile Plus Speaker System, without Speakers, 1968-1977 261.99

Custom mounting against rear horizontal panel of the Corvette storage areas looks like factory installation with very little reduction of storage space. May also be used on 78-80 Corvettes without optional dual rear speakers. Only 3" deep with 2- 4" woofers, 2- mid range speakers and 2- 2" tweeters (6 speakers total!). 200 watt power handling. Not available for convertibles. This radio speaker bar is made in 3 pieces. Each speaker box measures 19" wide by 7" tall x 2 5/8" thick. The vinyl center panel measures 23" wide by 6 1/2" tall.

(xviii) Return Policy. Items must be returned in the original packaging within 30 days of invoice date for a refund of product cost to the original terms on the invoice. Items returned within 30 days not in the original packaging are subject to a 30% restocking fee. Items returned after 30 days not in a condition to be resold will be repaired and returned at the customer's expense. If the item is not repairable it will be returned to the customer at the customer's expense. Items returned after 30 days in the original packaging you will be issued a refund to the original terms on the invoice less a 30% restocking fee. Items returned after 30 days not in the original packaging will be returned to the customer at the expense of the customer. No returns on electrical products or tools. Returns will not be accepted for any orders older than 90 days. No returns of a partial set, parts will be mailed back to the customer at customer's expense. Exception returns may result in a merchandise credit. There are no returns on seatbelts. There are no returns on special order items. In the event the item is defective it will be replaced. Refunds greater than \$50 will be issued in the form of a company cheque, otherwise they will be refunded by way of their original payment method.

(xix) Cancelled Orders. If a customer requests cancellation of an order after the order is in processing in our warehouse, or after the goods have actually been dispatched from the warehouse to the shipping department, www.corvettedepot.ca reserves the right to charge a restocking fee of up to 30% of the value of the goods, deducted from the resultant refund or credit. Refunds greater than \$50 will be issued in the form of a company cheque, otherwise they will be refunded by way of their original payment method.

(xx) Verify Members' Address: www.corvettedepot.ca reserves the right to contact a Member via email to verify the accuracy of account information (including the Member's correct name and address) that is needed to provide the Member with the information he or she requested from www.corvettedepot.ca.

(xxi) Pricing Policy: Due to the fluctuation in exchange rate on a daily basis, www.corvettedepot.ca cannot provide a refund for

any decreases in pricing on our website. Pricing of all parts includes conversion into Canadian dollars based on the daily exchange rate. www.corvettedepot.ca reserves the right to cancel any orders due to pricing errors on any products.

(xxii) Electrical Item Warranty: www.corvettedepot.ca does not allow any refunds on electrical items, they can only be returned for exchange. All items that fall under this policy will be outlined in a disclaimer below the product name on the shopping cart page along with the product invoice. The reason that there are no returns on electrical items is that too many people try to take advantage of the return system. Instead of using proper diagnostic procedures, some people resort to trial-and-error parts swapping when they don't know how else to fix an electrical problem. When parts they have installed do not fix their problem, they want to return them and try something else. Electrical parts are easily damaged by improper installation or testing. Because electronics are very sensitive to voltage overloads, it does not take much of a voltage spike to ruin a component. Unplugging a wiring connector while the key is still on can create a momentary voltage surge of hundreds of volts. Crossing up the wrong wires or using the wrong test procedures can also damage sensitive electronics. We have no way of knowing whether or not the part has been used or damaged. Because of these risks there are no returns on electrical components. This policy will protect the next customer who might get a bad part that had been returned. Electrical items that are found to be defective within the first 30 days after receipt of product will be covered by our warranty policy. There are no exceptions to this policy.
