

WILWOOD DOT 5 "FIVE" BRAKE FLUID

Fluid Highlights:

Wilwood FIVE is a highly refined, high-performance silicone brake fluid formulated to preserve the looks and reliability on classic vehicles and show cars. Its non-hygroscopic blend blocks moisture absorption to inhibit internal system corrosion. It is paint friendly and will not harm custom finishes should a spill or leak occur. Wilwood FIVE provides superior lubrication for all brake system wear surfaces with long life from the master cylinder and caliper pistons, bores, and seals. It is a fully DOT 5 compliant fluid meeting or exceeding FMVSS 116 and MIL-PRF-46176B-DOT specifications, and can be used in any vehicle that is OE specified for DOT 5 use.

Wilwood FIVE comes in convenient 12 ounce containers hermetically sealed to guarantee against unwanted absorption of moisture.

Available individually, in six-packs, or economical 24 bottle cases.
