FORD MUSTANG **POWER BRAKE KITS FOR CARS WITH** **FACTORY MANUAL TRANSMISSION**

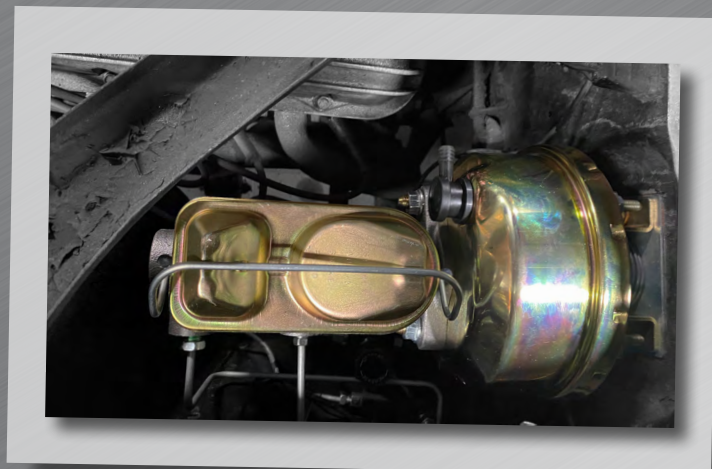

Upgrade your disc brake 64-66 Mustang to Power Brakes with our all-inclusive kit!

Designed to work with factory manual transmission cars, this system will clear the stock "Z bar" style clutch linkage and give you the performance of power brakes.

This kit includes all the necessary mounting brackets, firewall plate, 7" power brake booster, master cylinder, brake lines, adjustable proportioning valve, fittings, hardware and step by step installation instructions for an easy installation.

This factory looking unit will clear your stock strut tower and export brace with no modifications to either!

***** Cars with aftermarket cable style clutch use part number FC0002HK*****
